

bird cry

Chews it chews it chews chews it
Belly full of chews it it it it
Did we
Did we did we we we we
Choose it choose it choose losing
Lose it lose someone lose loose as a
Goose dead dead dead
Not I not I not I not gonna die ever
Ever Did I did I chew belly full
Did I try did I we well
We tried we tried like treason
Chewed chewed tree after tree after still
Tree hung tons hung reason reasons hung
So so hungry
Even belly full even even
Chosen we we did well well
We did we even try
